

MCR10020  
Fix Incorrect Control Arg in  
`generate_mst.info`

Eric Swenson

December 26, 2016

## 1 Issue

This MCR addresses ticket:

<https://sourceforge.net/p/dps8m/tickets/61/>

The help file for `generate_mst` incorrectly documents a synonym for the `-file` control argument as `-f1`. The correct synonym is `-f`.

The file in question is `>doc>privileged>generate_mst.info`.

## 2 Proposed Change

The proposed change is to correct the reference to `-f1` to `-f`.
