

**MCR10026**  
**Correct Spelling Error in poll\_mpc.pl1**  
Daiyu Hurst  
10 January 2017

## **1 Issue**

An informative message issued by `poll_mpc` incorrectly spells the word “consecutive” as “consequtive”:

```
2146 ut poll_mpc: The requested device is not available. Unable to attach urpc.  
2146 ut poll_mpc: Polling of urpc turned off because of too many consequtive  
failures.
```

The correct spelling is “consecutive”.

The source file in question is `poll_mpc.pl1` contained in `ltd>tools>source>bound_mpc_tools_.s.archive`.

## **2 Proposed Change**

The proposed change is to correct the spelling by changing “consequtive” to “consecutive”.
